Euro Reps To Market InduSoft Web Studio Into European, Middle East, African and Latin American Markets

Austin, TX — May 1, 2006 — InduSoft LLC (www.indusoft.com) announces that Euro Reps Ltd./Latin Reps (www.euro-reps.com), a Manufacturer's Representative for Maple Systems HMI products, will market InduSoft products into the EMEA (Europe, Middle East, and Africa) and Latin American market place. Euro Reps currently supports over 200 local Distributors and System Integrators in these market areas.

Combined with hardware and other software represented by Euro Reps Ltd./Latin Reps, InduSoft Web Studio provides a powerful, integrated collection of automation tools that are the building blocks needed to develop human machine interfaces (HMIs), supervisory control and data acquisition (SCADA) systems, and instrumentation and embedded applications. InduSoft Web Studio runs on native Windows NT, 2000, XP, embedded XP, CE 3.0 and CE .NET environments and conforms to industry standards, such as Microsoft .NET, OPC, DDE, ODBC, ADO, XML, SOAP, and ActiveX.

According to Rocco Colauto, President of Euro Reps/Latin Reps, "InduSoft is a strong addition to the current manufacturers we represent, complimenting our line of Windows CE-based HMI's (Maple Systems), PLC's (SoftPLC) and smart controllers (Texmate)".

“Euro Reps/Latin Reps operates as a regional export department, building and managing local Distributor and Systems Integrator relationships on behalf on our principals. Our positioning and strict focus on the Distributor and Systems Integrator channel allows us to function as the perfect interface between local channel partners and our principals. “Euro Reps/Latin Reps is not a distributor or “reseller” of any kind, we are a marketing, service and sales support organization” says Rocco Colauto.

“Euro Reps is a great compliment to our existing channel of Distributors, System Integrators and OEM partners”, adds Marcia Gadbois, Vice-President of InduSoft. “The Maple Systems Ivory Series of Windows CE-based HMIs, bundled with InduSoft Web Studio (CEView), has been widely accepted by End Users and Machine Builders alike. Euro Reps will help deliver and support this bundled solution into a broad geographical market area.”

###

About Euro Reps Ltd./Latin Reps

Euro Reps/Latin Reps is a professional organization that provides “outsourced (international) sales, marketing and support services” to American manufacturers active in the industrial automation and instrumentation field. With twenty years of ongoing international/export experience, Euro Reps/Latin Reps provides the perfect setting to act as interface between local channel partners and international expansion seeking manufacturers.
